| Chancellor’s Residence   | —                             | —                              | —                                     | —                           | —                           | 6,500 ASF  |

The Housing Program will add a total of 1,700 beds by 2020. The first 712 beds will be delivered in Fall 2018 with the balance in 2020.

The “First Delivery” column indicates facilities the campus requires to be delivered in 2018. The “Second Delivery” column refers to facilities that would be delivered in 2019.

“Substantial Completion” represents facilities delivered in 2020. The combination of First Delivery, Second Delivery, and Substantial Completion facilities constitutes the built program of the 2020 Project that will be complete by Fall 2020.

The “Master Plan” column represents program that is *not* part of the 2020 Project, but that could be accommodated for future development within the land use master plan, funds permitting, and at a later date.
