

2020 Project - Development Team Working Group Meetings

September 2013

The 2020 Project Development Services Team will meet with and engage the campus community through small focus groups where we will identify the needs of the campus and stakeholder interests in a holistic manner. We have identified approximately 30 groups for this first wave of meetings. This initial wave of meetings is intended to ensure all campus stakeholders are provided with the same opportunity to voice their vision, needs, desired adjacencies, concerns and areas of ongoing interest.

The following provides a list of the meetings that will be scheduled during the weeks of September 9 and September 16. The lead contact for each of these groups will be contacted with the schedule for the meetings, and will be asked to identify the individuals within each of these areas who should attend the focus groups. Richard Cummings will serve as the 2020 Project team's point of contact and can be reached at (209) 228-4434 or rcummings@ucmerced.edu.

An individual from the 2020 Project Team will reach out to the lead contact for each group to coordinate the logistics. In order to provide a setting conducive for a robust discussion within each of the areas identified, we may need to manage the size of each meeting. This may require groups to communicate broadly within your respective areas prior to the meetings to ensure all perspectives are brought to the table.

2020 Project Focus Groups
